

A world without infrastructure transparency

CoST Infrastructure
Transparency
Initiative

Thursday 07 October, 1pm – 2.30pm BST, Online event

Without sufficient transparency safeguards, recovery plans face risk of setback. In the infrastructure sector, potential impacts include billions wasted, trust eroded, siloed approaches and superficial change. [Join our online event](#) where sectoral experts and open government advocates will highlight the transformative potential of such safeguards, key to strengthening economies and improving lives.
